

# CyFireAI™ by CyBase Risk Management

Imagine getting a call from the FBI: **"You've been breached!"** Would your **executive team** know what to do next?

## Who is CyBase Risk Management?

CyBase Risk Management equips small to mid-sized businesses to proactively prepare for **that moment**, with executive-level cyber crisis training via **CyFireAI**, a real-time simulation platform that sharpens decision-making, drives compliance readiness, and prevents costly downtime & regulatory failures.

We partner with MSSPs to implement industry-aligned controls that meet insurance and regulatory standards. We support insurance brokers to help their clients qualify for cyber coverage, reduce risk exposure, and respond effectively when a breach occurs.

**Turn Chaos into Confidence with Cyber Fire Drills.**

**Our Why...** CyBase Risk was started after learning that Lincoln College, an HBCU, shut down after 157 years due to a preventable cyberattack. It broke my heart, and lit a fire, because most breaches can be avoided with basic cybersecurity in place.

**CyFireAI** was sparked by our founder's love of movies and learning—think your own Mission: Impossible. Our AI-powered simulations drop business leaders into high-stress cyber crises, building the **muscle memory** needed to respond fast and smart when it counts.

## Who We Serve

Our **'hot-spot'** is SMBs (50– 500 employees, \$5M–\$75M revenue) in high-risk, regulated industries (i.e. Healthcare (HIPAA, HITECH), Financial (SEC, FINRA, SOX), Legal (Privacy & Confidentiality), Real Estate (Privacy/Security), and Education (FERPA)).

## Program Components

**Early access Now Open! Be One of the First to Experience CyFireAI**

**AI-Powered, Custom IR Simulation Platform (Exec. role-specific)**  
*vCISO guided 2-hour interactive simulations of real-world breach scenarios, tailored to your industry, infrastructure, and leadership roles using adaptive AI logic.*

**Risk Assessment Snapshot**  
*Provides a prioritized action plan mapped to NIST CSF controls to strengthen your cyber posture and close high-risk gaps.*

**Executive-Level Reporting**  
*Delivers a polished, C-suite-ready report outlining actions, gaps, outcomes, and recommendations from the simulation.*

**Roadmap to Remediation (CSF-aligned)**  
*Comprehensive analysis of your organization's cyber maturity and threat exposure across key functional domains.*

**vCISO Services**  
*Strategic cybersecurity leadership on demand — from compliance oversight and tool selection to board reporting and audit prep.*

**Pilot Test / Early Adopter Pricing** (60 day promotion) - Thank you for building with us!

**\$1,250** (one time)

**Mission**  
**CyFireAI** transforms the way the world prepares for cyberattacks, by making **every executive** battle-tested before a real breach hits.

**Vision**  
We envision a future where every company, no matter the size—can respond to cyber threats with **confidence, clarity, and control.**

**Built for Business Leadership. Powered by AI.** Let's talk about maturing your cyber posture today.

# CyFireAI™ AI-powered Cyber Fire Drills

🔥 The breach is simulated. **Your decisions are not.** Experience CyFire.AI and lead like it's real... because one day, it will be.

## Subscription Tiers & Pricing

Early access Now Open! Be one of the First to Experience CyFire.AI

### Tier 1: Essentials

👤 For small teams building a foundation  
**\$2,500/month**

- Quarterly CyFireAI simulations
- Cyber Maturity Snapshot & Roadmap to Resilience
- Executive report + Risk scoring
- Awareness Training
- Quarterly strategy call

#### Turnkey, Non-Invasive Deployment

No integrations. No setup. No excuse not to start. Simulations are run inside our secure platform. Immediate ROI value.

### Tier 2: Pro

📊 For growing orgs with compliance needs  
**\$4,500/month**

#### Everything in Essentials

- +Multi-scenario simulations
- +Monthly Staff Training
- +Phishing & credential monitoring
- +Risk Register & IR Playbook refresh

#### From Simulation to Strategy – In One Session

We test your response and guide the fix. Compliance checklists don't build muscle memory, exercises do.

### Tier 3: Enterprise

🏢 For audit-heavy or high-risk orgs  
**\$7,500/month**

#### Everything in Pro

- +Advanced Simulations (Multiple Scenarios)
- +Full Remediation Lifecycle
- +Threat Intel & Audit Prep
- +Dedicated vCISO oversight

#### Early Adopter Perks

- Low upfront cost
- 24 month Access with no cost increase
- Grandfathered pricing for future features (20% discount)
- Influence product roadmap

**Practice the Chaos. Perfect the Response.** Let's talk about maturing your cyber posture today.
